

Carousel1

Pop out and file the parts shown in the picture.

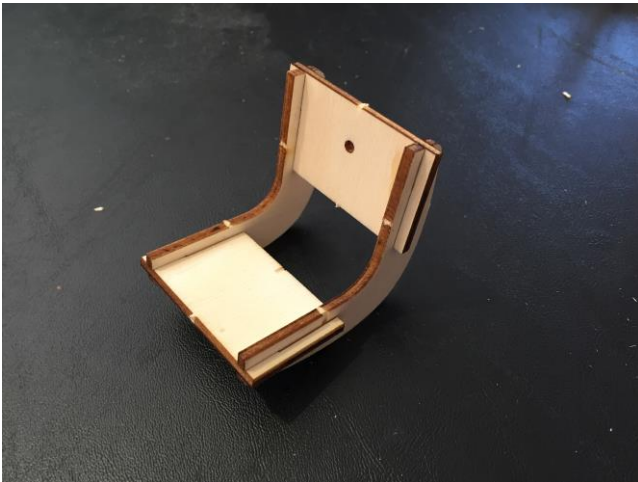

DO NOT POP OUT ALL THE CHAIRS' PARTS AT ONCE.

One chair at a time

Each chair, has one rectangular part with no holes, one with a hole at the center and two "L" shaped parts.

Glue the L parts to the rectangular part without the hole.

Slide and glue the holed rectangular part on the other side of the L parts.

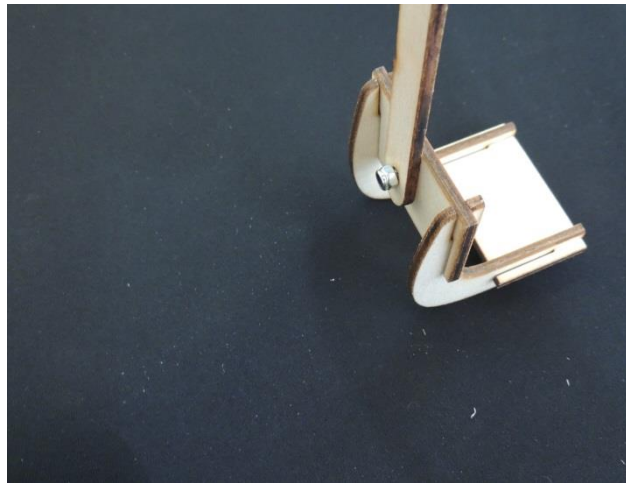

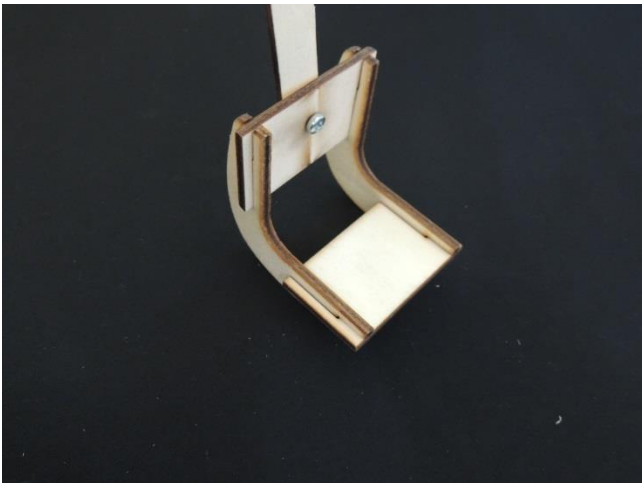

One by one complete all the chairs.

Continue ONE CHAIR AT A TIME!

Take one long part, hand the kids 1 regular 10 screw and one NYLOCK locknut

Place the long bar behind the chair, insert the screw and tighten it with the locknut.

Look at the time, if you have enough time continue to the next chair.

Leave 10 minutes to pack the parts in individual bags with the student's name on it and clean the classroom.
