

Ferris Wheel 1

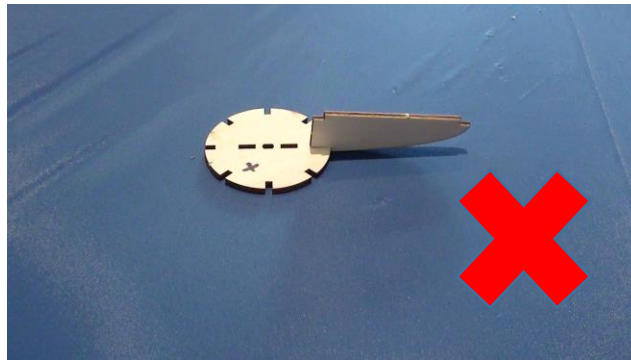

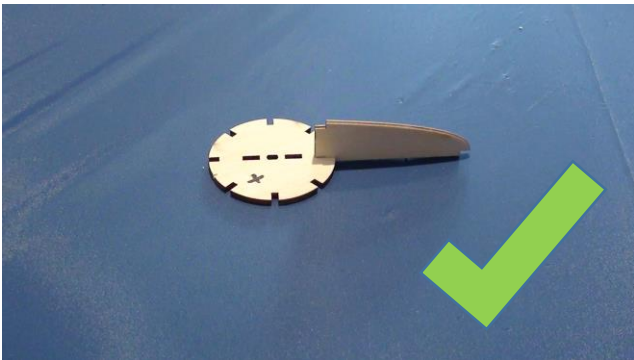

Before starting, make sure every student has a bag with his name on it.

All completed parts will be kept in the bag

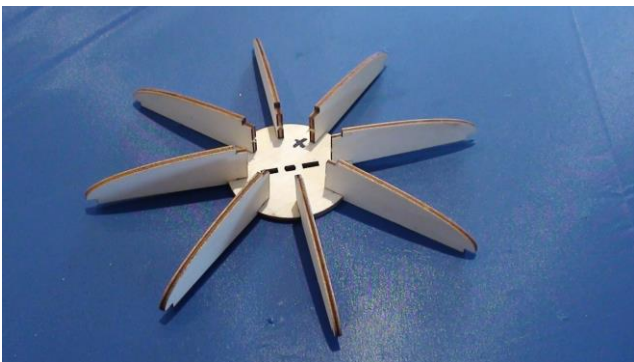

Pop out and file down the parts shown in the picture

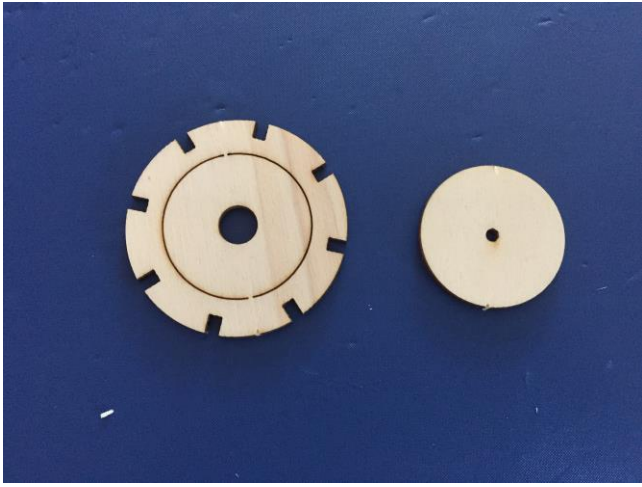

Use the part circled in red (and marked with an X)

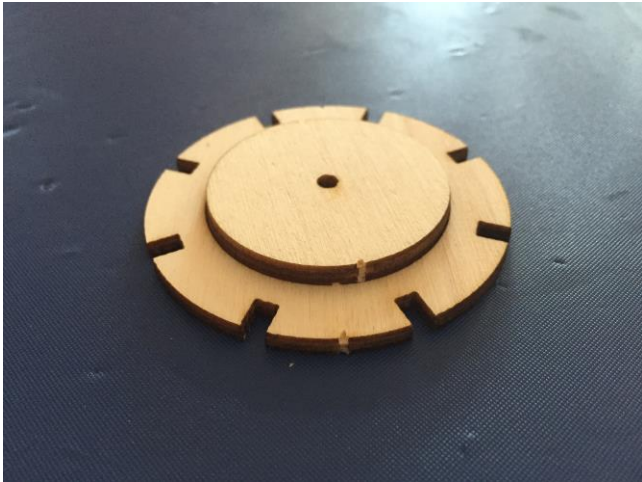

Start gluing the side parts when the flat part is glued to the circle.

Check the directions. Once the students glued the first part correctly, continue with gluing the other parts.

Pop out and file down the parts shown in the picture. Please notice both parts has a round hole in the center.

Glue the smaller part onto the larger one, use the round mark on the larger part to place the parts correctly.

Let all the parts dry and continue to the next part.

Pop and file down the parts shown in the picture.

Color all the parts on both sides.
